BRITISH FEAR FOR SEA SUPREMACY

Club as Leviathan and Big German Boats Sail Away—11 Liners. None British, Call at Southampton.

Telegraph to The Freeman. Southampton England July 17.—The British mercantile marine—for many years supreme upon the high seas—is fighting with its back to the wall, and there were no loud and prolonged cheers from British shores when the giant American liner Leviathan sailed for New York today. This mighty American steamship is completing the final lap of her maiden voyage under the Stars and Stripes.

Sailing of the Leviathan marks another step forward in the international trans-Atlantic war which threatens British supremacy in ocean passenger transportation. Both American and German steamship lines are making serious inroads into British passenger and freight lines.

It is within the range of possibilities that rate cutting may result from the bitter competition which is growing up.

Germany's mercantile marine has shown a remarkable revival and reached its highest point when the modern Hamburg-American liner Albert Ballin sailed from Southampton.

The Albert Ballin somewhat diminished Southampton's pride in the dimmed lines Majestic and Berengia and this pride was further diminished today when the Leviathan set to sea like some palatial "Woolworth building of the high seas."

During the past week eleven big trans-Atlantic liners called at Southampton for freight and passengers, but not one flew the red ensign of the British mercantile fleet.

British shippers are beginning to fear that only a British government subsidy can maintain England's supremacy upon the seas.

They claim that both American and German lines are receiving assistance from their governments.

FRANCIS MERCHANTS ARRESTED PARKING GOODS ON SIDEWALK

Abram Alon and Isaac Kingsberg Discharged by Judge Schirck.

Monday afternoon Officer Keresman arrested Abram Alon and Isaac Kingsberg, two Strand merchants, on a charge of violating the sidewalk ordinance in displaying goods on the sidewalk in front of their stores.

This morning in police court Judge Schirck discharged them with instructions to obtain permits from the board of public works before using the sidewalks to display goods.

Alon had a considerable amount of merchandise in front of his store at East Strand at the time he was arrested, while Kingsberg had a peanut roaster and a number of hand lettered signs in front of his place.

The sidewalk ordinance was adopted several years ago to prevent merchants using the sidewalks to carry on their business. At the time the ordinance was adopted the sidewalks in some sections of the city were cluttered with merchandise in such a manner that pedestrians had difficulty in getting through.

ANOTHER HEALTH CLINIC AT COURT HOUSE JULY 24

Another free health clinic will be held at the court house on Wall street on Tuesday, July 24, from 9 to 12 in the morning and 1 to 4 o'clock in the afternoon. Dr. Wang of New York will be the examiner in charge.

Fire at Palen's Plant.

Monday afternoon about 5:20 o'clock the fire department was called to the H. W. Palen's plant at 519 Broadway by a still alarm. Fire was discovered in the box for the blower electric system. The damage was slight.

Crop Prospects Nearly Up To Average; Plenty Of Fruit For Canning Purposes

Government Estimates More Encouraging To Farmer Than To The City Resident—More Winter Apples.

By Telegraph to The Freeman. Albany, July 17.—Crop prospects in New York state are better than they were a month ago and are now nearly up to the usual average. According to the estimates of the United States Department of Agriculture and the State Department of Farms and Markets only the southwestern counties have been seriously hurt by the dry weather that has reduced the hay crop all the way from Virginia to Minnesota.

Pastures are poor, and wheat, rye, oats and perhaps hay are expected to give slightly lower yields than usual, but reports indicate good prospects for corn, beans, and most fruits.

This month's crop report is more encouraging to the farmers of the state than it is to the city people. The fact that the hay crop is short in most of the competing dairy states, except in New England, will ultimately benefit dairy farmers in the acreage of potatoes in the United States will help to prevent an over-production of this crop of occurred last year.

Albany, July 17.—There will be plenty of fruit on the market this year and those who are planning a

EUGENE CARLE UNDER ARREST

Eugene Carle, the driver of the car that caused the injury of six men on Abel street Sunday afternoon, was arrested Monday afternoon by Sergeant Hanley on a warrant sworn out by John J. Kiernan of Eddyville, whose Ford car was wrecked when hit by Carle's. Mr. Kiernan charges Carle with reckless driving and running his car at a speed of approximately 55 miles an hour. This morning in police court Carle was represented by Attorney Frank W. Brooks, and a plea of not guilty to the charge was made. Owing to the fact that some of the witnesses are still in the hospital it was thought best by consent of both sides to adjourn the hearing for three weeks. Bail was fixed at \$500 and furnished.

HER "DISCOVERER" SEES GALLI-CURCI'S HUSBAND

Slander Charged to Homer Samuels By William Thorner.

By Telegraph to The Freeman. New York, July 17.—William Thorner, "discoverer" of Amelia Galli-Curci, Monday filed suit for \$50,000 charging slander against the prima donna's husband, Homer Samuels. Thorner alleges that he was talking in the lobby of the Berkshire hotel in Reading, Pa., to Cameron C. Baer, a wealthy Reading citizen, whose daughter Thorner was instructing. Samuels approached them and according to the complaint, said:

"I don't want to butt in, but do you know that Thorner never taught madame a note?"

Baer is said to have replied: "I am a business man. It seems very strange to me that if he never taught madame a note he could use her name in the advertisements."

The complaint says Samuels replied: "The only reason we didn't train on him is that he got madam her first job."

Mme. Galli-Curci and her husband are at present at their summer home in Highmount, near Nine Hills, N. Y. No answer has as yet been filed by the defendant.

LINCOLN STARS WIN FROM OLIVE BRIDGE

The Lincoln Stars of Kingston traveled to Olive Bridge Sunday and defeated the Olive Bridge team by the score of 5 to 4. Joe Nichols pitched an excellent game. The lineup for the Stars: Gill, catcher; Nichols, pitcher; Sipka, first base; Cassidy, second base; Howard, short stop; Hoffman, third base; Prusak, right field; Houghtaling, center field; and Williams, left field. The Lincoln Stars would like to play the Silk Mills, U. and D. Jacobsons or any other team in the city or out of town. Communicate with Edward Houghtaling, 175 Hasbrouck avenue.

Sunday, July 22, the Lincoln Stars will again visit Olive Bridge. The game will be called at 3:30.

MORRIS MILLER'S CAR WAS HIT IN COLLISION SUNDAY

The running board on the new Hudson touring car of Morris Miller was damaged Sunday afternoon when it was struck by the big Fiat driven by Eugene Carle, which then crashed into Kiernan's Ford car, wrecking it. In the car with Miller were six passengers. Miller says that in making the turn in the road and just before Kiernan's car was hit by the Fiat he did not know that another car was behind and trying to pass him. He had been to Kilton and was returning to Kingston at the time, and was not racing with Gene Carle at the time of the Abel street mixup that afternoon.

All-Night Parking on Streets Is Forbidden

The fact that there are many automobile owners in Kingston who use the street in front of their homes for garage purposes by parking their cars all night in front of the house without even a light on the machine led the board of public works Monday evening to unanimously adopt a resolution that parking of automobiles or other vehicles all night on the public street be prohibited and directed the police department to see that it was enforced.

In the discussion that preceded the adoption of the resolution it was

brought out that streets were intended for passage ways and not parking purposes. A man had no more right to park his car or wagon in the street all night than he would have to stable his horses or move his own bed out and sleep parked at the curb.

It was stated that there were a large number of auto owners who left their cars standing all night without even a light lit, which is a violation of the state law.

It is expected that the police department will shortly make a raid on negligent auto owners who do not comply with the provisions of the action taken by the board of public works.

PARKING PLACE ON ANN STREET?

Alderman Ralph Mann Suggests That Board of Public Works Purchase Roach and Adjoining Property for Downtown Parking Grounds.

Alderman Ralph Mann appeared before the board of public works at the regular monthly meeting Monday evening, and called attention to the need of a parking grounds downtown for automobiles. Alderman Mann suggested that the board purchase the Roach property on Ann street together with the adjoining Kilroy property and the strip of land on which had been contemplated the erection of a Jewish synagogue.

The Alderman from the Seventh ward said that he believed that the three properties could be purchased for a sum in the neighborhood of \$8,000, and in taking the matter over with many of the leading downtown merchants, they had agreed with him that it would make a fine site for parking grounds, affording plenty of room to park machines, easy of access and near to the shopping district in that section of the city.

Mayor Crane, who presided at the meeting, informed Alderman Mann that the board would take the matter under consideration.

BILL AGAINST CAPITALISM BEATEN IN COMMONS

By Telegraph to The Freeman. London, July 17.—Labor leaders declared today they were not disheartened by the House of Commons defeat of Philip Snowden's motion to suppress capitalism, but would try again.

Chief comment upon the debate today centered on the old time energy displayed by former Premier David Lloyd George. The way the ex-premier came to the front indicated that he has a new program to bring to the front in an effort to cure the social ills now afflicting Great Britain.

The vote upon the Snowden motion was purely upon party lines and gave no indication of the strength of the labor-socialist movement outside of the House of Commons.

Labor leaders say they are satisfied and claim that the Tories and Liberals failed to "make out a case for capitalism."

ANDERSON HITS OUT AT BANTON

Promises To Show That Tammany Is Piker Compared To Him And That Prosecution Is To Help Him Win Governorship

By Telegraph to The Freeman. New York, July 17.—The tilt between District Attorney Banton and William H. Anderson, superintendent of the state anti-saloon league, waxed warmer today when Anderson in a statement declared he would "show" that Tammany is a piker compared with Banton's scheme to make himself governor.

Anderson, under investigation by a grand jury on allegations of bribery, forgery and extortion, in connection with his management of league funds, intimates that Banton is prosecuting him in hope that it might aid his aspirations toward the governorship.

"I have got District Attorney Banton now, about where I want him," the statement set forth.

"He admits that a young woman came to his office, showing other pressure upon him, other than the merits of the case."

"He admits having the governorship in mind in connection with his indictment. Mr. Banton denies that he refused to prosecute the head of the 'wet' organization. If the pious district attorney had only known what we know, he would have hedged instead of putting his head into the noose."

"I expect the district attorney to deny the facts. I caught him last week in a falsehood. A man who will do it once will do it again."

"Mr. Banton says that in Texas one or the other of us would have to get out of town. That was what he was trying to do, not in Texas; style but by perversion of official power."

"Banton says he will give out some correspondence."

"Everything supposed to be damaging to me has already been published. I shall show that Tammany is a piker compared with Banton's scheme to make himself governor, and I should suspect Tammany will find evidence of a double cross in the plan of Banton and Raymond Fosdick to work both sides of the road 'wet' and 'dry'."

"Mr. Banton says one very true thing when he says that it is not in the book of fate for him to sit in governor's chair."

CLEMONTS WIN FAST GAME FROM PIONEERS

On Monday night the Clermonts won a hard fought game from the Pioneers by the score of 10-7.

Marks, who is the star pitcher of the Clermonts, pitched an excellent game, having eleven strikeouts.

The lineup for the Clermonts was as follows: Lewis, short stop; L. Bruhn, third base; D. Rosenzweig, first base; Shultz, catcher; P. Bruhn, second base; J. Misove, left field; H. Houghtaling, right field; J. Houghtaling, center field; L. Marks, pitcher. The battery for the Pioneers: Peters, pitcher; Pat Gallagher, catcher.

The Clermonts have won ten out of eleven games played this season against good teams.

The Clermonts challenge any team between the ages of 12-15 years. Teams desiring to book games telephone 1003-W.

SIDDALL, MARY TO WORK, TO BE BURIED IN OHIO

By Telegraph to The Freeman. New York, July 17.—The body of John M. Siddall, editor of the American Magazine, who died at his summer home, Ardsley on the Hudson, will be sent to Oberlin, Ohio, his former home, today.

Had Her Husband Arrested.

Mrs. Louis Bagch had her husband arrested Monday afternoon on a charge of non-support. The arrest was made by Officer Dranspy. This morning in police court Mrs. Bagch had changed her mind and asked to withdraw the warrant. Judge Schirck stated that he would allow the withdrawal of the complaint on payment of the usual dollar, and warned her that he was not accustomed to issuing warrants to have them later withdrawn.

Burroughs Memorial Tablet On Slide Mountain; That's Enough, Says Benedict

Thinks Famous Naturalist Himself Would Oppose Proposal to Re-name Favorite Catskill Peak.

Editor The Freeman:

I am informed that a letter recently appeared in the New York Herald which suggested that the name of Slide Mountain be changed to Burroughs Mountain in honor of John Burroughs. The writer is unknown to me by name or fame. I hope the suggestion will find no support in Ulster or other Catskill counties. If John Burroughs were alive I am confident he would be one of the first to oppose it. Through the liberality of Henry Ford he has forever set aside Woodchuck Lodge, Burroughs's birth place and Slab Sides, his late home, as memorials, and they are already shrines in annual pilgrimages of lovers of his

writings and memory. His name is inseparably associated with Slide Mountain. Soon after his death I suggested through your columns that that fact called for the placing of a tablet on the mountain top as a memorial. I am informed that that suggestion is about to be carried out by the Winnisook Club; that the tablet is already made and will be placed next month on the Lookout Rock under which Mr. Burroughs often slept and from which he was inspired to pen many beautiful sentiments, bearing local character, three of which will appear in enduring bronze on the tablet with the name of John Burroughs and Slide Mountain.

London, July 17.—The old society rumor that the Prince of Wales may marry Lady Mary Thynne was revived today by news that he will visit the Marquis of Bath, her father.

By Telegraph to The Freeman.

London, July 17.—Opponents of the Harding administration, both within and without the Republican party, were jubilant today over the election of Magnus Johnson, the Farmer-Labor candidate, to the seat in the United States Senate which Knute Nelson, a Republican, occupied for more than a quarter of a century.

Although members of the Republican senatorial campaign committee threw their support to Governor J. A. O. Preus, who opposed Johnson, private advices from St. Paul during the past few days had prepared them for the disappointing outcome of the Minnesota election. The few Republican senators who are in Washington had very little to say concerning Johnson's victory and scarcely anything at all for publication.

It was expected, however, that formal statements, commenting upon the result, would be issued during the day by the Republican and Democratic national committees, both of which were greatly concerned over the Minnesota campaign. Johnson's election has reduced the Republican majority in the 68th Congress to only 56 votes, compared with fifty in the last Congress.

Assuming that a Republican successor is named to fill the vacancy caused by the death of Senator Dillingham of Vermont, the new Congress will have 51 Republicans, 43 Democrats, and 2 Farmer-Laborites. The actual Republican strength, however, will be much less, due to the disaffection of such senators as LaFollette of Wisconsin, Brookhart of Iowa, Borah of Idaho, Norris of Nebraska, and Frezler of North Dakota.

Senator Henrik Shipstead who defeated Frank B. Kellogg last year, and who will be Minnesota's senior senator in the next Congress, has already lined up with the LaFollette progressives, and it is expected here that Senator Elect Johnson will follow his lead.

In view of the fact, too, that Minnesota's new senator conducted his campaign largely upon promises of providing more governmental assistance for the farmers, he will undoubtedly become a leading member of the senate "Farm Bloc," a group which has already left its mark on national legislation, and whose power has continued to increase.

JOHNSON THANKS MINNESOTA VOTERS

(By Magnus Johnson, New United States Senator From Minnesota.)

By Telegraph to The Freeman. Minneapolis, July 17.—The majority of the voters of this state have elected me to the United States senate because of the principles of government they and I stand for.

Government is instituted to promote the welfare of the people and not to protect a few in the special privileges given them. The high tariff imposed on the consumers, the unjust treatment of labor, the plight of the farmers, the packing of the judiciary with men favorable to the high financial and railroad groups, and the short sighted, bungling foreign policy pursued by our government toward other countries and their peoples and other similar problems, will receive my earnest attention and study.

I congratulate the people of Minnesota on their victory. What the organized farmers and workers pulling together have accomplished in Minnesota, they can likewise accomplish in other states in the union.

I thank the people of this state for the honor they have conferred on me. I want to thank particularly the thousands who unselfishly have given of their time and of their small means to help bring about this great victory.

CONCERT WEDNESDAY EVENING AT SAHLER'S

Another concert is scheduled for Wednesday evening, July 18, at the Dr. C. O. Sahler Sanitarium, which will be given at 8 o'clock in the park pavilion.

The program brings again before the music lovers Mr. and Mrs. Hans Weissman as pianist and violinist, and H. S. Taylor as vocalist, all of whom need little introduction, having proved their exceptional versatility and talent at past concerts. Mrs. Llewella Norris as contralto soloist will also appear on the program. Mrs. Norris is new to the Kingston public, but the solos she has rendered at the evening lectures of the summer school have already endeared her to the hearts of the people.

The program is as follows:

Mirage.....Lisa Lehmann
Piano.....Tosli
Pines.....Graig
With the Violoncello.....Graig
Sextette from Lucia.....Donizetti
Berceuse from Jochy.....Godard
H. S. Taylor

Polonaise.....Vienetomps
The Old Refrain.....Kreiser
Liebesleid.....Kreiser

Rumor

Daddy's Evening Fairy Tale

BY MARY GRAHAM BONNER

MRS. COW'S AMUSEMENTS

"Moo, moo," said Mrs. Cow. "I really must say that I do not believe in all this excitement for new amusements and for new pleasures. It is so silly when you think of the things that will do just as well. No, you don't find Cows behaving foolishly a manner."

"What is the trouble?" asked Mrs. Brown-and-White Cow, who was sitting next Mrs. Cow in the meadow.

They were both having a pleasant afternoon chat. Some of the other cows had wandered off to the nearby brook to have a quiet wading party.

"You see," said Mrs. Cow, "I have heard the farmer talking. He is forever wanting new things—sometimes they are for his work and sometimes for his pleasure, too. He is talking now of a new car. He used to be well pleased with Dolly, the horse. But now he talks about a car. Then there are the children. They see something new and they want it. New-fangled toys and such things."

"Then there is the farmer's wife. I heard her talking about a new style hat and a new style dress she thought of getting. She hadn't anything new, she said, in some time. But there she was wanting something new in style! I don't believe in all this."

Mrs. Brown-and-White Cow chewed slowly, and then said: "Moo, moo, still I wouldn't get excited about it."

"Oh, I shan't," said Mrs. Cow. "I only thought I'd talk about it to you, as I've been thinking about these things."

"I see," said Mrs. Brown-and-White Cow.

"Now, the farmer is eager for new things. New things seem to interest him greatly. I suppose, if they had new kinds of cows, he'd want them! Thank goodness, though, we don't change. And why should the farmer's wife want something in a new style?"

"Dear me, do cows ever change their styles? Do we ever look unhappy because we can't have ribbons and bonnets and shawls and fur coats? Do we ever look sad because we can't have silk waists and best shoes for Sundays? Of course not!"

"It is true that we wouldn't find silk waists very useful. I can't imagine myself being able to button or hook one up. I'd find it very awkward. I feel sure. And I don't think bonnets would be becoming to us. Shawls would get in the way. I fear I'd find

"They're Well Pleased."

a shawl as much of a nuisance as I would a lot of flies, and I'd try to wish it off with my tail.

"But the main point is, we're not always thinking of something new and exciting and stylish and different."

"We're satisfied."

"And our young calves are the same way."

"We never hear them saying to us, 'Mamma Cow, may we have a new airplane or a new train of cars which goes by itself?'"

"No, they're well pleased with the good old pleasures of chewing and eating and drinking and wading and resting and caring for their mothers. Oh, I'm so glad I never had a child who asked me for this and who asked me for that. And I never wanted to rush off to go shopping or to a picture show. A picture show wouldn't interest me. If they showed Wild West pictures I'd not be interested. I've heard they're exciting and I like calm things better than excitement."

"As for funny pictures—well, I haven't much of a sense of humor. There are not many who will admit that about themselves, but Mrs. Cow will. I'm not one who laughs. I don't even think things are funny enough to smile at very often."

"I wouldn't want to own an automobile, because they go joggling and bouncing and hurrying about. If they were filled with growing grass and had a little brook running through them, and if they hardly moved at all—then I might like them better."

"But, no, I'm satisfied with what I have and with good old Cow ways, and so are all of us and so are our calf children. Oh, I don't believe in all this excitement for new amusements and for new pleasures."

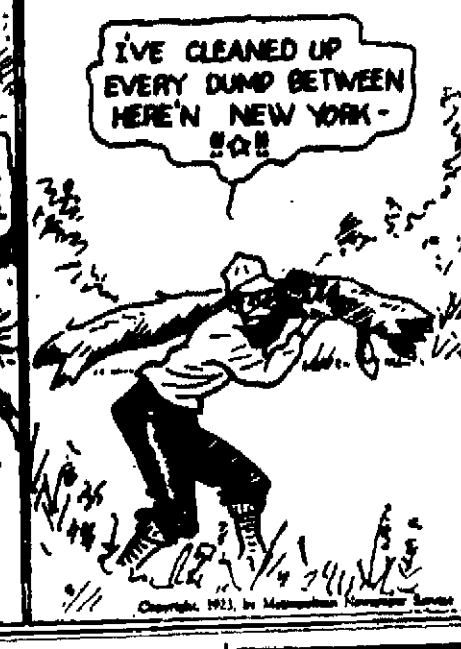

"I see you don't," said Mrs. Brown-and-White Cow. "Well, neither do I."

Not Jimmy's Fault.

THINGS WORTH KNOWING

When placing dishes of food on the table, to prevent skidding place an old can rubber under the dish.

Two or three measuring cups are necessary for the wise cook; one may be used for liquids and one for dry ingredients.

Wash fruits well before serving, except such fruit as bananas, when served sliced.

Use a few drops of turpentine in the boiler of clothes when boiling them; it whitens. Added to starch for collars will make them glossy.

Silk stockings should be washed after each wearing. The perspiration rots the fiber of the silk and it washed they last much longer.

Adding a cupful of fresh sweet milk to a pound of butter, softened so that it may be worked into it, will stretch the butter very noticeably. However, such butter will not keep but a day or two without becoming sour.

A short bristle brush of good quality is a fine help in greasing dish and gem pans. Buy a good one that will not shed its bristles and wash well after it is used each time.

A small peanut butter glass with a lid can hold so many things for the little girl's lunch box.

Touch jelly or jam stains with spirits of camphor before removing the cloth. Fresh tea stains on linen may be removed by sprinkling at once with salt.

Velvet coat collars or those of heavy material may be easily cleaned with corn meal moistened well with gasoline. Rubbed into the cloth, then brushed out. Do this away from any fire.

When mixing butter and flour or butter and sugar, use a fork; it will be done much quicker than with a spoon. In cutting lard into flour use two knives, one in each hand, and the process is hastened.

Accidental Discovery.

The accidental spilling of a bronze liquid on the kitchen table by a handy man about the house, painting the home radiators, has led to the discovery of a new way to protect wood from moisture, according to Carille P. Winslow, director of the forest products laboratory, Madison, Wis. The mishap that led to invention occurred on the "unfinished" top of a kitchen table. Before the investigator could get a cloth the bronzing liquid had dried. Connecting this incident in his mind with his work at the laboratory, he started a series of experiments, and a bronze coating, composed of a cheap glass oil and aluminum powder spread over to many other moisture-proof coatings for use indoors was developed.

Corn Laws Enacted in Britain, 1815. What were known as the corn laws in Great Britain, were enacted in 1815. Persons who advocated these and similar measures as a protection to native industry, and those who, viewing them as simply laying a tax on the consumer for the benefit of the producer, were in constant dispute. In 1839 an Anti-Corn Law League was formed to enforce the views of the advocates of free trade. In 1846 the failure of the potato crop in Ireland and of the harvest in England brought about a repeal of the corn laws. The laws absolutely closed the ports against the importation of foreign grain. A great deal of public disturbance, marked by riots, incendiarism and murders, attended the passing of the measures.

Makes Demand for Cotton Cloth.

The cotton cloth used in the manufacture of bags for the cement trade last year would make a strip thirty inches wide and 17,000 miles long, or that would reach two-thirds around the earth at the equator. In order to maintain the necessary stock of 200,000,000 sacks, the cement industry yearly orders approximately 30,000,000 new sacks, consuming 30,000 bales, or 15,000,000 pounds of cotton.—Popular Mechanics Magazine.

MILTON.

Milton, July 17.—The many friends of James E. Purdy of Kingston were shocked to hear of his sudden death, which occurred at home last Friday. He is survived by his wife and daughter and two brothers, Thomas of Kingston, and William of New York. Mr. Purdy was a former resident of Milton. His parents, Mr. and Mrs. Thomas B. Purdy, owned and lived on the property on Sands avenue now occupied and owned by Isaac Foster. Before his death Mr. Purdy's father was for a number of years engineer on the steamer Thomas Cornell and on the steamer James Purdy served a number of years on these boats also on several others of the Cornell Steamship Company. His friends in Milton extend to his family their sincere sympathy in their sudden and sad bereavement.

WE'LL ANSWER THE CALL!
HELP!

WE are equipped with a scientific knowledge of optometry. We can answer Poor Eyesight's cry for help. We will do more than to give you a simple test to discover if you are suffering from far sightedness or from myopia (near sightedness), we will look back into the inner recesses of your eyes and discover their exact defects. We will prescribe glasses for you that will bring back to you the blessing of clear vision.

ings were exceedingly limited. The
market showed no important changes
neither the demand or prices. Hud-
son River Valley, all sections, per
quart, various varieties, best, 10-11c,
fancy few sales 12-13c, small and
ordinary 8-9c.

Strawberries.—Receipts from Os-
wego county were comparatively
light. The market was slightly weak-
er with the demand only moderate,
partly due to the bulk of the offer-
ings being of inferior quality and
condition. Oswego county, all sec-
tions, various varieties, per quart,
best, mostly 20-25c, fancy 27-30c,
extra fancy few small sales 32-35c,

RAILWAY CONTINUES FIGHT
ON SCHENECTADY JITNEYS

By Telegram to The Freeman
Schenectady, July 17.—Attorneys
for the Schenectady Railway Com-
pany, whose employees have been
on strike since May, continued the
fight to drive jitneys off the streets
of the city today before Justice
Angell of Glens Falls. They seek to
offset the order of County Judge
McMullan, vacating the company's
injunction against jitneys. The
people of the city persist in their
refusal to patronize the trolley cars,
riding only in the jitneys.
Thomas J. Lynch, the new as-
sistant general manager of the com-
pany, gave warning that the com-
pany would take every possible step
to stop unlawful jitneys. He said
that while the company pays
thousands of dollars in taxes, the
jitneys pay nothing and are not even
bonded so that the people have no
redress in case of accident.

SHANDAKEN.
Shandaken, July 17.—Mr. and
Mrs. Henry Deming and daughter,
Dorothy, of Stony Point and Mrs.
Herbert Turner of Poughkeepsie,
were weekend visitors at Mrs. M.
Crispell's.
Dr. Hedevo Noguchi and Mrs.
Noguchi of New York have ar-
rived at their summer home in this
place.
Mr. and Mrs. Joseph Enser and
son of Amsterdam, N. Y., were
guests of C. E. Wood the past week.
Mr. and Mrs. Cook of Brooklyn,
N. Y., were the guests of W. D.
Cognas for a few days.

The Busy Bee Class of the Sunday
school, Miss Anna Riseley teacher,
will hold a food sale on the church
lawn on Saturday afternoon,
July 21.
The Rev. R. L. Mauterstock, pastor
of the M. E. Church, will hold a
children's meeting in the church Sat-
urday afternoon, July 21.
The Christian Endeavor Society
will hold its regular monthly busi-
ness meeting in the church hall on
Wednesday evening, July 18. In con-
nection with a meeting the pastor
will hold a prayer service in the
church.

Traits of Ancient Egyptians.
In spite of the military skill which
enabled the Egyptians several times to
extend the boundaries of their king-
dom far to the south as well as over
the greater part of Asia Minor, the
Egyptians seem not to have been a
cruel or fierce race, declares Robert
Cresswell, in the New York Tribune.
In the large, they had the dispositions
that have always gone with patient la-
borers tilling a rich soil. They hated
all foreigners and all foreign ways;
they believed in their own country as
the only one worth mentioning; In-
deed, for centuries they were so in-
sular that they called themselves "Ro-
met," meaning simply "men," leaving
the despised races around them to
share any other appellation they could
think of.

These Watches Real Antiques.
A watch that is 200 years old has
every right to be called an antique.
But a watch that was an antique at
the time of the French Revolution and
was well past the century mark when
Louis XIV was adorning himself in
satins, silks and velvets, that watch
today is an antique in every sense of
the word. Two such watches are
owned by a man in Newark, N. J. They
are French watches and both about
350 years old. When the Pilgrims set
sailing for America those timepieces were
ticking away in French waistcoats,
perhaps the pride of some village inn-
keeper of affluence.

The Test of Acquaintance.
"It isn't length of acquaintance that
counts with people—it's sudden tests
—and being able to speak the same
language—occasionally, even. Some
people you can go on talking to all
your life and never know them at
all, because they don't say a single
thing that seems true to you, and
they look at you as though you were
mad when you speak your real
thoughts about anything." — From
"The Incoming Tide," by Janet Mait-
land.

A. R. A. Withdrawing, Leaves Food
For Russian Children Weakened
By Hard Years of the Famine

Although the American Relief
Administration is rapidly with-
drawing its personnel and planning to
end its work in Russia, Russian
children from Petrograd to Odesa,
in thousands of schools and chil-
dren's homes, are still sitting down
happily to their daily meal of
A. R. A. food.
Colonel William N. Haskell when
he agreed to feed up to 8,000,000
Russian children to the coming
harvest, requisitioned sufficient food
supplies to enable him to carry out
that program. As the Relief Ad-
ministration withdraws from the
districts, supplies are left behind in
the hands of the various committees
organized to carry on the work in
quantities sufficient to meet the edi-
cated need until the next harvest is
gathered. The photograph shows
one of the smaller feeding centers
in Moscow. It is maintained for the
children who are pupils in the school
pictured, but it is typical of what
the A. R. A. is doing all over Russia.
The faces of the children are the
best index of the success which the
American Relief Administration has
attained in counteracting the rav-
ages of famine and undernourish-
ment. They tell, better even than
the letters which the children write
to their American benefactors, how
much the nourishing cocoa, the corn
grits and the fats, the good wheat
flour and American milk have meant
to the millions of half-starved
urchins, many of them merely lost or aban-
doned, who have found their way
into the Russian institutions—insti-
tutions so destitute of funds as to
be unable to provide the bare de-
cencies for healthful living.
The prospects are that the com-
ing harvest will bring to Russia food
enough to care for her teeming mil-
lions and leave a goodly surplus to
be exported. Because it is purely an
emergency organization for the re-
lief of famine, the American Relief
Administration believes that the
harvest time should see the end of
its Russian program. The task of
relieving the general poverty that
exists because of the breakdown of
the industrial life of the country
and the disorganization of the social
and economic structures and the
slow work of reconstruction and
rehabilitation is left to other
agencies.
But whatever may be done for
them in the future, there are mil-
lions of children in Russia who will
cherish the memory of the "Ahra"
kitchens, where they ate strange but
hunger-quenching foods in the
years of the great famine.

LITTLE TALKS ON THRIFT

by S. W. STRAUS, President American Society for Thrift.

The benefits of thrift are by
no means limited to material
matters. The effects on the char-
acter, the development of moral
stamina and the inspiration of
right living are among the good
fruits of thrift that cannot be
measured by the
standard of dol-
lars and cents.
"Save and teach
all you are inter-
ested in to save,"
wrote Thomas Jef-
ferson, "thus pave
the way for moral
and material suc-
cess."

Back of all suc-
cess in life must be
character. No one
ever has really
succeeded without
it. By success is not meant
alone the accomplishment of
great deeds. A good life is a
successful one. A good house-
wife is a success. A good moth-
er is a success. A good citizen
is a success. And when one
analyzes the success of those who
have been the great leaders of
thought and action one finds
that notwithstanding tremen-
dous mental power and broad
vision, they possessed the out-
standing feature of character.

How important for example,
was this fact apparent in the
cases of such men as Lincoln,
Franklin, Jefferson and Wash-
ington. They were guided en-
tirely by matters of principle.

Our characters are molded
by our daily hab-
its. The young
man for example
who charts his car-
reer and then ad-
heres strictly to his
plans will succeed.
This means that
every day he is
overcoming ob-
stacles and resis-
tance temptations.
But those who are
weak, drift with
events and eventu-
ally fail.

Thrift does not mean alone
the saving of money. Your
bankbook or your investment
strong box do not entirely tell
the story of the value of your
thrift. There is something in the
heart, in the brain that are even
of greater value.

Practice thrift, not alone be-
cause of the rainy day or for the
period of old age, but for all it
will mean to you in the days of
activity and progress as well.

KINGSTON, N. Y., JULY 17, 1923.

TAFT'S VIEW OF PROHIBITION.

According to a London dispatch, Chief Justice Taft, in a preface to "The Law of Kinship," by Lord Shaw of Dunfermline, writes that "with many others" he "was opposed to national prohibition" and that his "fears" as to the results "have been realized only too fully." Discussing the crime wave, only in part due to after-war conditions and reaction, Mr. Taft is quoted as saying in the preface to the new book named:

We have a special promoting cause for lawlessness in our community. As an outgrowth of the reforming and religious enthusiasm during the war, we enacted into the Constitution and statutes the policy of prohibiting in the whole United States the manufacture, transportation, import and export of intoxicating beverages. In a colder and calmer state of the public mind, the reform is found to be at variance with the habits of many of our people, especially in the larger cities, and from the outset the law has become most difficult to enforce.

After referring to the persistent home-brewing among our foreign-born, "used to beer and wine as a part of their daily diet," (to whom the practice is by no means confined), Mr. Taft is quoted as saying further "But the most distressing symptom is the attitude of well-to-do, intelligent people who protest against the justice and wisdom of the law, and who treat with levity its violations when such serve to furnish them with wines and liquors for their own enjoyment." Usually persons of this class are on the side of strict law enforcement, but now, instead of being "an element of strength," their attitude and acts are "demoralizing." Mr. Taft deplores "the enlargement of the criminal classes by recruits led to join their ranks by the lax, apologetic, conniving attitude of respectable people toward this unlawful but lucrative trade."

What is to be done about it? Inasmuch as it is "simply impossible" to get a two-thirds vote in each house of Congress and the vote of the legislatures in three-fourths of the states, to repeal the 18th amendment, "there is nothing to be done," writes Mr. Taft, "except to set ourselves to the serious task of enforcing the law, to cease protesting against its enactment and by such attitude encouraging its violation."

Inevitably this will be characterized in some quarters as a rather lame and impotent conclusion. The very conditions which Mr. Taft describes are proof that protest is not going to cease, and that the difficulties Mr. Taft foresees as a result of a policy be regarded as unwise will never be eliminated. The supreme head of our judiciary does not appear to be very hopeful as he recommends public acquiescence, and the quotations from his pen tend to convey the impression that he does this only because he thinks that no change is possible. But is his reasoning in this particular altogether correct? It may be impossible to repeal the 18th amendment, but it ought to be possible to modify the extreme statute interpreting that amendment known as the Volstead act, and that would have a quieting effect upon an increasingly agitated public and greatly improve the present grave conditions.

WASTE OF ENERGY.

According to the newspapers Governor Smith will make a tour of the State in October for the purpose of electing enough Democratic members of Assembly to control the Legislature next year. The Governor has not yet made out his itinerary, which, when it comes, will be interesting, as it will indicate just where he expects to make gains. It is certain that he will not spend any time in districts which are normally Democratic, so the schedule will mark Republican counties where he thinks it will be possible for the Democrats to elect their candidates for the lower branch of the Legislature.

The trip of the Governor should be interesting in many ways. It will be interesting to know the issues on which he will ask for support, particularly in Republican counties, for there is no reason to expect that he will use up any en-

ergy in Democratic strongholds. But he is going to tour the State and his mission is to get control of the Assembly, which would give him unopposed dictation in the Legislature. To acquire control of both branches of the Legislature, however, is beyond the Governor's wildest dream and no one perhaps knows this better than the Governor himself. Yet he has his own way of doing things and it may be that while he realizes that there is not a chance to increase the number of Democrats in the lower house he can discuss problems which he thinks may make it easier for him to put over recommendations rejected and rightly so by the Republicans during the last session.

1. What is a basilisk, and what is meant by fixing anyone with a basilisk eye?

It is a lizard found in Mexico, Central America, and the extreme upper regions of South America, usually has a sharp ridge or crest along the back and top of the tail, and a quite conspicuous head crest. The tail is exaggeratedly long and slender. Harmless, herbivorous and insectivorous, but an old superstition taught that the glance of the basilisk's eye spread death and destruction.

2. Why do wild turkeys like to roost in trees with branches hanging over water?
Because they have learned to be wary and take a perch that cannot be reached by foxes or other small preying animals. These cannot spring at, or climb to such a perch, and the turkeys know this and sleep in peace.

3. What sort of nest does the common mole build?
We have no data on this, and understand that the home life of the common mole is not very well known. The American Museum of Natural History offered a moderate sum of money this spring for a specimen mole's nest containing eggs, to an object for study.

MAJOR PIERCE VISITS CHUMS OF SEVENTY YEARS AGO

James Pierce of 44 Sterling street, the veteran musician who was drum major of the Old Twentieth Regiment during the civil war, returned on Saturday from a visit to Greenville, Greene county, the scene of his boyhood days. In time to collect his share and bass drum and traps and play with Malsenholder's orchestra Saturday evening at the Orpheum Theatre during the entertainment given by the National Vandeventer Artists. Major Pierce is seventy-nine years old and says he is "still a young fellow." During his boy days' visit at Greenville, Freshford and East Durham, he states he met three of his schoolmates of about thirty years ago, one of whom he had not seen in over sixty years. Taking along his violin, which instrument he still plays with great proficiency, he rendered each evening to the delight of the Greenville residents not only standard selections but some of the jazz and popular numbers of the present day, which class of music he expresses a poor opinion of.

ARMY ENLISTMENTS OPEN FOR CHINA

It was learned at the U. S. Army Recruiting Station, 496 Broadway, Albany, N. Y., that the War Department has 25 to 50 vacancies in the 15th Infantry, to be filled by enlistment. This regiment is stationed in Tzietzin, China. The quota required is very small and as this is an exceptionally choice assignment it is not expected to stay open very long. The qualifications for this assignment are as follows: Previous service men must have discharge with character excellent, and no marks against their records, all applicants must be bright, intelligent and of soldierly appearance. The 15th Infantry which is protecting American interests in China, on account of the unsettled condition of the country, is at the present time guarding the railway lines and doing other work of a like nature. The regiment has been stationed at this post now for the past fifteen years, and it is very rarely that a vacancy occurs as the men reenlist, as a general rule, immediately upon discharge from their current enlistment. They are provided with tailor made uniforms and are in continual contact with the forces of other foreign countries who have troops in China.

Under the new appropriation act which went into effect July 1st of this year, no man can be accepted for service in the Regular Army who is under the age of 21 years, without a parents or guardian's consent, and those over 21 must produce proof of age. In spite of these restrictions which have been put on the recruiting service, Captain Swanton, in charge of the Capital District of the Army Recruiting Service at 496 Broadway, Albany, N. Y., says that applicants have been coming in quite fast and since July 1st, to date 13 men have been enlisted, notwithstanding these restrictions. During the month of June the district made a total of 48 enlistments. The recruiting station which is located at the Main Post Office, Kingston, N. Y. is open every week day from 8:00 a. m. and on Saturdays until 12 noon.

TROOPERS' WORK AT EAST KINGSTON NOTICEABLE

Writes Resident Who Thinks They Should Be Returned.

Editor, The Freeman:

Kindly allow space in The Freeman. I am a resident of East Kingston who never knew the town to be in better condition than it is today. For which the residents can thank Troopers Roche and Ross who were stationed here about six weeks ago. During their stay they made the town worth living in. The conditions of a year ago were a disgrace to any village but Roche and Ross turned the tables at a year ago.

It wasn't safe for a person to travel in order to avoid being shot residents would have to fall to the road or try to dodge bullets. Roche and Ross soon cut the halter on those gunmen and made it a town worth living in.

Now when things are rather quiet they are taken away which is an injustice to the residents of East Kingston. They have a right to protection the same as any other town. The troopers made the town as it is today by their faithful work. They were always on the job any hour of the day or night. Distance didn't matter. They devoted their time to their duty and never shirked a minute. They favored no one, treated one and all alike and were fair in every respect. As a resident of the village, knowing the conditions of a year ago, I should think to be fair to the people they should be returned as they were real gentlemen always ready to give a helping hand in accident, or any thing. They knew the brickyard section to a fraction which takes some time to study and always knew where to go. They put the ban on the speeders, no more hitting 50 miles through the village, where there are a lot of children. East Kingston needs such men as Roche and Ross and it is an injustice to the tax payers to have them taken away. They were well liked by the whole town, not for any favors but the condition they put the village in. They were square and upright in all their dealings. I do not know Roche or Ross personally but I know and can see the difference in the town since their arrival. It's one thing I admired. They should be returned to East Kingston. Not only I but the whole village has the same idea.

A RESIDENT OF EAST KINGSTON.

A Word on the Cleaning and Care of a Watch

ALMOST any watch will run for months after the last drop of oil in the bearings has disappeared, but it goes without saying that injury will result.

A very small watch must be cleaned, oiled and cared for much oftener than a large one, because in the tiny watches that are worn by women today the oil-cups cannot possibly retain oil for more than six months at a time.

A large watch, with its liberal bearings, has more power, carries more oil, and is not nearly as likely to be disturbed in its action by little flecks of dirt, which easily stop a small watch, and it may be run three times as long. To get at, to oil all the parts of a watch, it must be taken down completely and every one of its many parts thoroughly cleaned and repolished.

A watch is a machine. No matter how delicate, no matter how finely adjusted, it is always a machine.

We are pleased to regulate watches without charge and to examine a watch and advise you whether it needs attention and give full information regarding the extent and cost of repairing, subject to your approval.

STATE INSPECTS ESOPUS BRIDGE

Three Bridge Inspectors From State Highway Department Thoroughly Inspect Higinville Structure and Will Report Later to Board of Public Works.

At a meeting earlier in the month of the board of public works the board instructed Corporation Counsel Walter N. Gill to take up with the state highway department the matter of having the Higinville bridge over the Esopus creek inspected by that department. In response to the request made by the corporation counsel three bridge inspectors from the state highway department have been in Kingston making a thorough inspection of the structure. They will submit a written report to the board of public works at a later date.

There has been agitation lately to have a new bridge erected to replace the present structure. The board of public works is in favor of a new bridge. The cost of the new structure would be equally divided between the city and the town of Ulster. The town of Ulster would first, however, have to submit the proposition to its taxpayers before it could raise the amount needed to pay its share.

ELLENVILLE

Ellenville, July 17.—Erwin D. Baker, who was formerly employed with the DuBois hardware store here, returned to his home at Andover, N. Y., Sunday, after assisting in taking inventory of the stock of the late L. DuBois hardware the past week.

Benjamin Carpenter was called to New York Monday by the death of his cousin, Mrs. Etta Wolf.

Whether ex-President Woodrow Wilson, who now lives in Washington, has bought this old Virginia homestead, located near Fairfax, Va., his native State, remains a mystery. The mansion, about 10 miles from Washington, has been the property of A. C. Edmondson, and neither he nor Mr. Wilson will confirm the report, which grows daily. The house and 250 acres of land are valued at \$125,000.

SUNDAY SCHOOL
LEADERS RETIRE

By Telegram to The Freeman.

Albany, July 17.—A change in the leadership of the organized Sunday school work of the Empire State has occurred. Dr. Joseph Clark of Albany, after thirty years of aggressive leadership in Sunday school work, the past eleven years as general superintendent in New York state, retires from that office. Elmer Yelton of New York, as executive secretary, and George A. Goodridge of New York, as director of publicity and promotion, have joined the staff of the state association.

Messrs. Yelton and Goodridge have been leaders in Y. M. C. A. work, both of them recently serving the International Committee. Yelton in work with foreign students and Goodridge in the department of publicity and promotion. Other members of the state staff are the Rev. T. Basil Young, education superintendent; Elizabeth Harris, director of children's division; Fred D. Cartwright, director of young people's division, and Norma Frank, headquarters secretary. William Dalton, of the General Electric Company, Schenectady, is president of the state organization and of the annual convention, and Herbert L. Hill, of Jamaica, is chairman of the executive committee.

The state organization is conducting and adding the promotion of summer schools at Saratoga Springs, Silver Lake, Carmel and Sidney Grove, and is represented at International Council Training Schools at Lake Winnepesaukee, N. H. and Lake Geneva, Wis. At these summer schools, several hundred Sunday school workers are receiving training for effective leadership. The state committee staff is also cooperating in the programs of hundreds of daily vacation Bible schools conducted by local Sunday school boards and church federations, in leading cities throughout the state.

"The Four Year Fund" of one-half million dollars, raised in the 1919 campaign, is now exhausted, and plans are in the making for financing the program for 1923-24 of the state organization and of twelve divisions and sixty-two counties, including also a share in the annual budgets of the International Sunday School Council and World's Committee.

The 89th State Convention will meet at Rochester, October 10 to 12, with 3,000 delegates expected. The general topic will be "Our World—Hope—Christian Education." At this convention it is proposed to change the name of the state organization to the "New York State Sunday School Council of Religious Education."

The state association under its new leadership is not content with radical changes, but will endeavor to carry forward with energy and enthusiasm those phases of the program of religious education which have proved to be feasible and acceptable to Christian leaders concerned with the teaching function of the church.

FRUIT DRINKS CALLED
THE BEST ON HOT DAYS

Syrupy Concoctions Likely to Make Thirst Worse.

Fruit drinks really quench thirst instead of making it worse, as is likely to be the case with some too-sweet soda fountain concoctions. For that reason, the food specialists at the state college at Ithaca offer some suggestions on making fruit drinks at home. These fruit drinks, they explain, should be sweetened with sugar syrup, made by cooking together one part of sugar to two parts of water.

Lemonade and orangeade of course are old standbys. An appetizing drink also may be made from raspberry vinegar. To make the vinegar, the following rule is given. Put two quarts of raspberries in a bowl, and cover with a quart of vinegar. Cover and stand in a cool place for two days. Mash the berries and strain the vinegar through cheese cloth, and pour over two quarts of fresh raspberries and let stand for another two days. Then strain, put in a preserving kettle, and add a pound of sugar to each pint of juice. Heat slowly, and skim when it begins to boil. It should boil for twenty minutes and then be placed in clean hot bottles. To serve, add two tablespoons of this juice to a glass of water.

Raspberry vinegar may be combined with other fruit juices in a fruitade made as follows: Mix together 1 cup grated pineapple, 1 cup raspberry vinegar, juice of 1½ lemons, juice of 2 oranges, and 4 tablespoons sugar syrup. To serve, fill the glasses three-fourths full of chopped ice, and add 3 or 4 tablespoons of the liquid to each glass.

A refreshing julep may be made as follows: Boil ½ cup sugar with a cup of water and cool. Add the strained juice of 3 lemons, bruised leaves of 4 sprigs of mint, and a pint of ginger ale. Fill the glasses half full of crushed ice, add the julep and place a sprig of mint on top. The addition of crushed mint leaves and garnishings of sprigs of mint add to the flavor and appearance of most fruit drinks.

A bottle of ginger ale added just before serving will improve the flavor and thirst-quenching qualities of many fruit drinks.

CURRENT OFFERINGS
AT THE THEATRES

"Masters of Men." Vitaphone film now showing at Keene's Theatre, depicts fist fights that are said to make the fight in "The Spoilers" look like a Methodist love feast. It is a story of the sea with a strong love theme running through it and real atmosphere obtained on sailing ships and U. S. naval vessels. It is endorsed by the U. S. army and navy officials and a recruiting officer will be in the theatre lobby today and tomorrow, the days the film is shown, with a special display.

"The Loves of Pharaoh," an Ernest Lubitsch production for Paramount, showing at the Auditorium tonight, had a tremendous success in New York where it ran for several months.

LOST FOX RACK; THEN

WEST AND FOUND MATE

Dutto's Pets Return to Their Chicken and Hot Dogs.

Louis Dutto is the owner of two pet young foxes which he keeps tethered on long chains in a yard at 8 Thomas street Sunday morning early a man intending to "do a good turn" noticing that the chains on the foxes were entangled under the tires of an automobile truck in the yard unfastened the books on the collars of the foxes and began pulling the chains from under the tires. Then the young foxes made a dash for the street and quickly were out of sight.

An hour later Mr. Dutto missed the foxes and learning they had scampered down Thomas street began a search for them. Two hours later he saw what he thought was one of his pets under the rear of the Subway Lunch building which fronts on Railroad avenue. He walked to the spot and shouted "Come, Dickie! Come, Dickie!" the name of one of the pet foxes. To his surprise the fox came out his hiding place crying as if glad to see his owner. Keeping up his call for the fox to come along Mr. Dutto walked to his place the fox following along, and arriving at the yard the chain was snapped to his collar. While starting two or three times to find the other fox Mr. Dutto noticed that "Dickie" would cry and make efforts to go also, so he was taken along at the end of a short chain.

When up Thomas street near where the trolley track enters the subway under the West Shore tracks, "Dickie" pulled at his leash and made an effort to go to some railroad rails in back of the lot. Mr. Dutto allowed him free rein and followed. "Dickie" crawled under the rails and peeking under Mr. Dutto saw four blinking black eyes and then knew that "Dickie's" mate which is a female fox had been located by her playmate. Taking a chance Mr. Dutto shouted to the foxes to come to him, calling them by name, and the two came scampering to him, crying, seemingly with gladness to see their owner. They followed him back to their home in Dutto's yard, where they are each tethered to the end of a long chain, so they can easily reach their pan of milk, chicken bones or frankfurters, which they like to feed on.

CHANCE FOR 1,000 MORE

AT ARMY TRAINING CAMP

The following telegram was received this morning by Eugene B. Carey which may interest young men of this city and vicinity.

New York, N. Y., July 16, 1923. Eugene B. Carey, Kingston Post, 58 John Street, Kingston, N. Y.

Due to our successful recruiting campaign the War Department has just increased our quota of students for citizen's military training camps. One thousand more students may apply for the splendid facilities of these camps during August. All expenses paid by government. Will you as an expression of your fine patriotism make final effort to get eligible young men to apply to army headquarters, Governor's Island, New York.

R. L. BILLARD, Major General, U. S. A.

Any young man desiring to become a student at the Citizens' Military Training Camp may obtain blanks from Mr. Carey at 58 John street.

Rotten Time Promised.

A Japanese invitation to dinner recently runs as follows: "I beg your pardon for thus insulting you in begging your company at my house to dinner. The house is very small and very dirty. Our habits are rude, and you may not get anything fit to eat, and yet I hope that you will condescend to be present with us at 6 o'clock." You go, and you find everything exactly the opposite.—Boston Transcript.

BALDWIN FACES DELICATE TASK

Whether He Decides To Placate French Or Show Britain's Independence, Strong Members of His Own Party Are Likely to Break Away.

By Telegram to The Freeman.
London, July 17.—There was a more optimistic feeling in British official circles today over the reparations issue due to a semi-official communication from Paris that Premier Poincaré's speech Sunday should not be regarded as an answer to Premier Baldwin's reparations proposals in the House of Commons last Thursday.

Diplomatic conversations are still in progress between London and Paris and foreign office officials are hopeful that the French will take a more favorable view of the British reparations note when it is transmitted to the Allies and the United States this week.

A draft of the note will be submitted to the cabinet tomorrow. Premier Baldwin will reach the turning point tomorrow at the cabinet meeting. Political observers say that he must either declare his independence of the pro-French "die hards" (who put him in office) or submit to other demands to tone down the British demands.

The pro-French section of the cabinet, which is understood to include Lord Derby and Lord Salisbury, want the British to meet the French views. A split in the Tory party is threatened unless their demands are met.

The Daily Express, a politically independent newspaper, urged Great Britain to copy the isolation practiced by United States and to leave continental politics alone. It warned the people against a complete break with France saying that such an event would breed a new race in armaments. On the other hand the Liberal and Labor newspapers urged the government to exert pressure upon France in an effort to induce the French to accept the British view.

The suggestion is being made in some circles that Great Britain propose that the reparations issue be put to the international tribunal at the Hague. However, it is not getting a warm response in official quarters.

GERMANS STARVE, SAYS MINISTER

Effect Of Fall Of Mark Explained By Herr Brauns—Red Revolutionists Wait Until People Become Desperate.

Copyright 1923 by International News Service.

By Telegram to The Freeman.
Berlin, July 17.—"It is conservatively estimated that 7,000,000 German men and women are slowly starving to death as a result of the industrial crisis and the fatal plunge in the value of the mark," declared Dr. Heinrich Brauns, German minister of labor, in an exclusive statement to International News Service today.

"They are people who were converted into paupers because the inflation upon which they formerly could have lived comfortably for a whole year will not buy bread for one week under present conditions. Then there are millions living solely upon old social insurance premiums. The fall of the mark has reduced these sums once sufficient for all necessities—to ridiculous pittance that will not buy a single newspaper today."

"We have 400,000 actually unemployed, but in addition there are millions comprising what the late Dr. Walter Rathenau called 'victims of unemployment.' These millions are like the ballast of our industries and trade. They are kept in their jobs either at full time or part time as the result of demobilization legislation."

"Throw this human ballast ruthlessly overboard and the result would be to drive them into the streets and invite revolution. To the outside world it appears that Germany is 'dumping' her products, but in reality the constant devaluation of our money indirectly affects all the markets of the world—particularly the labor markets."

"We do not want to underbid foreign nations, but so long as the mark continues to tumble, as it does now, foreign nations can buy our products so cheaply—against our will and beyond our control—that widespread unemployment must result in those other countries. Unemployment is the beginning of downward revision of the wage scale everywhere."

"The world should understand that, far from dumping our goods abroad, we want—because we must

MRS. HARDING IS FORCED TO REST

By Telegram to The Freeman.
Fairbanks, Alaska, July 17.—Tired out by her activities since she started from Washington with the president, Mrs. Warren G. Harding, it was admitted today, is suffering considerably from fatigue. Yesterday she remained all day in her hotel room, not leaving it until time to board the train that carried the presidential party from this town. Doctors Boone and Sawyer said Mrs. Harding's condition was not serious, but that she was badly in need of rest.

Another long journey by rail and a sea voyage to Seattle still confronts the party and it is deemed imperative that Mrs. Harding begin to slow up her participation in the President's program.

Sign Near East Pact Soon.

By Telegram to The Freeman.
Lausanne, July 17.—Preparations were made today to sign the Near East peace treaty this week. The Turks and allied factions have reached an agreement upon controversial points and the envoys were hopeful that the committee could wind up the details by Saturday.

—to buy goods from other countries, especially foodstuffs from England and United States.

"Even formerly we had to import one fourth of our wheat abroad; now we must import at least one third, also the greater part of our wool, ore and copper and all our cotton. But we have not the money to pay for it."

"The farther and faster the mark sinks the quicker our workers will lose all faith in the future. There will be a fatal moment when the workers feel that all their superhuman efforts were futile. Communists are waiting for that moment when they know millions of German workers will join their ranks. If revolution comes in Germany it will be made not by workers who are Communists by conviction and who aspire to a soviet state, but by workers who have lost all faith in the future and are in a desperate state of despair."

Minister Brauns told of the sufferings of the workers and their families, thousands being compelled by poverty to go without socks and underwear.

TIP ON CONVICT LEADS TO PARDON

Bride Makes Successful Plea to Governor of Iowa for Young Husband.

HAS GOOD WAR RECORD

Shenandoah, Ia.—Someone who secretly tipped off the authorities that Clifford Solon, twenty-four, a bridegroom of four months, had a ten-year-old penitentiary sentence hanging over him has, all unintended, done Solon a great favor.

Investigation by Iowa officials to learn if Solon, an overseas veteran with a clean war record, had broken the parole granted him two years ago when the ten-year sentence was imposed upon him, disclosed that he had gone straight since his one slip, a minor part played in a gang's robbery of a store at Riverton, in Page county, Iowa.

Bride Starts Fight.

But the inquiry did more. It gave Solon's young bride an opportunity to launch a vigorous fight for his full pardon. She gave up a bank position she held in Omaha, in which city her husband was also working when the unfriendly "tip-off" came, and succeeded in interesting a former Iowa state senator and other influential citizens of Page county in the case.

The bride of four months pleaded with the governor that Solon had but one bad mark against him, that his

war record was one of honor, that he had held several positions faithfully and honestly since his parole, and that he had played fair with her, in telling her fully, before their marriage, of the stain upon him.

is Given Pardon.

The result was that Governor Kendall signed an unconditional pardon for young Solon, and the Omaha firm for which he worked is said to have informed him that his former job is his for the asking. The Solons have been busy thanking their friends for the assistance given them but so far have been unable to assure themselves definitely of the identity of the person who started all the action in their favor by sending the maliciously intended tip to the authorities.

COURTSHIP LASTS 46 YEARS

Half-Century Romance Culminates in the Wedding of Blind Couple in Missouri.

Columbia, Mo.—Both totally blind, and after a courtship lasting almost half a century, J. B. Sapp, seventy years old, and Mary Smith, sixty-nine, were married here.

"And is this Mary?" asked Sapp when Miss Smith journeyed from her home in Coffey, Mo., to the native town of her husband-to-be.

"Yes," replied the bride.

"Then take my arm and we will go into the house," he said. The ceremony was then performed.

Both were students in their younger days at a school for the blind in St. Louis. Since leaving school, 64 years ago, they had corresponded regularly. Recently Miss Smith consented to the marriage.

Wandered Thirty-Nine Years

Salem, Ore.—After 39 years of wandering, with never a word to his parents, John Oberg appeared in Salem, Ore. "Your parents are dead and your brothers and sisters scattered," was the reply sent to Oberg's letter to the postmaster of James town, N. Y., his home town.

WHO'LL PLAY THE WORLD'S SERIES?

The Giants Unless They Take a Game, But Someone Will Have to Play the Yankees, Apparently.

By Telegraph to The Freeman.

New York, July 17.—The dream of a series of their own is rapidly becoming a nightmare these days. While the Yankees are sailing on a smooth sea to Pennant, the Giants are finding the going rough and unless they take a lead in their playing they will find themselves shipwrecked.

The Giants have 71 more games to play, and fifty of them are with the Yankees. Up to date the Yankees have played their western opponents 35 games, and of these have won twenty victories.

When the Giants went west on their last trip they had what appeared to be a commanding lead, but they fell by the wayside and came home barely in first place. They have been losing to the Phillies and Braves, who have given them little opposition this year, but when the western teams again hit the Polo Grounds the Giants find themselves in a tight race.

Today the Giants are 3½ games behind the Reds and 4½ games behind the Pirates, their nearest rivals. They have tasted one less defeat than the Reds, the latter having five more games to play than the Giants, and at the gait the Reds have taken, there is a chance that they may add these five games in the last column, which would still furnish them with the pennant.

In winning their last two pennants the records show that the Giants always were able to fight their hardest when the opposition was keen. They were fought better on the road than at home, but always had the needed punch.

Next week the Giants start another year of the west. If they fail as they did on their first trip the National League hunting trophy will fly to Cincinnati or Pittsburgh. The Reds have the Giants to pieces in the last series to date, winning seven of them. The teams have 12 more games to play against each other. If the Reds continue their mad onslaught on the Giants twirlers the Giants might as well make up their minds to be content with second or third money in the world's series.

McGraw this year is not getting the pitching he did in the last two seasons. He has not one consistent winner among his stablemen. They have been twirling in and out base ball, winning one day and losing the next. The old fighting spirit also is not with the team and McGraw must still the old pep in his athletes if he wants to cop his third consecutive batting.

The Yankees have an advantage of 12 games over the Indians and at the rate they have been going it looks as if they will "cash in" in October.

LOCALS PLAYING AT TANNERSVILLE

The Colonials today are playing at Tannersville, the third game of their series, each team having won a game.

Tomorrow at the Fair Grounds the fast Cuban team, which holds a win over the Colonials, will be the attraction. Dahn and Russell will be in the game tomorrow. "Chad" See will pitch against the Cubans and a great game is looked for.

On Friday Red Hook will play at the Fair Grounds. Saturday the Colonials go to Stamford. On Sunday Tannersville plays here.

TAGGING ALL THE BASES IN THE MAJOR LEAGUES

With the customary sparkle missing from their playing the Giants split a twin bill with the Chicago Cubs 7 to 4 and 3 to 1; Bentley accounting for the second game win.

A seven run rally in the third frame was too much for the Pirates, the Robins winning 8 to 4.

The St. Louis Cardinals got to Philly pitchers for twenty-two hits and gained an easy 13 to 7 victory.

Coveleskie's pitching gave the Cleveland Indians a 6 to 0 shutout over the Yankees in the first of a bargain bill, but "Buller Joe" Bush knocked away the second for the Yanks, 11 to 7.

The St. Louis Browns made it four in a row from the Boston Red Sox, winning 4 to 1.

The Athletics nabbed the third straight from the White Sox, 4 to 3, and jumped back into the first division.

Liebold's triple in the fifth spelled a Washington victory over Detroit, 4 to 2.

EMPIRES' STRIKE THREAT DELITTLED BY TOOLE

By Telegraph to The Freeman.

New York, July 17.—Threats of umpires' strike in the International league failed to disturb President John Conway Toole today.

"If the league umpires walk out we will merely fill their places by others," he said, indicating there was plenty of "talent" available for the "meanest job."

The strike talk followed Toole's action yesterday in giving Umpire Bill Phyle his release without the usual two weeks notice.

McDevitt and Geisel, umpires scheduled to work in Rochester yesterday, refused to start the game and surplus players were used as arbitrators.

HIRAM JOHNSON TO REPORT HIS OBSERVATIONS

By Telegraph to The Freeman.

London, July 17.—United States Senator Hiram Johnson of California, departed for home today after making an investigation of European conditions. Senator Johnson refused to give an interview but said that his views would be presented to some extent in a speech he will make in New York shortly after his arrival. The speech will be written on shipboard.

Dance At Sawkill.

A dance will be held at St. Ann's hall, Sawkill, Wednesday evening. Peter Bolce's orchestra will supply the music. It is expected that a large number of former members of the parish will be present. The Sawkill bus will leave the uptown terminal at 7:30 o'clock daylight saving time.

KEARNS CONSIDERS RICKARD'S OFFER

By Telegraph to The Freeman.

New York, July 17.—Jack Kearns, manager of Jack Dempsey, world's heavyweight champion, is today "thinking over" Tex Rickard's offer to stage a meeting between Dempsey and Luis Angel Firpo in Argentina in October.

Fight fans predicted Kearns would turn down the offer. Rickard's hope is that the fight would draw an \$800,000 gate, half to go to Dempsey, if staged in South America.

Kearns believes Dempsey, in his next appearance, will draw a \$1,500,000 house if the fight is staged in either New York or Jersey City, and was expected to so inform Rickard today.

Failure of Rickard to get Dempsey's name to a contract to fight Firpo will result, it is believed, in Kearns signing up for a match with Harry Wills, negro aspirant to the heavyweight crown, the bout to be staged at the Yankee Stadium here on Labor Day.

Charlie White, loudly claiming that he is the most logical opponent for Benny Leonard at this time, will battle Ritchie Mitchell in a fifteen round encounter here tomorrow night. White is favored in the betting.

DIT BY TRAIN, AND CARRIED ON PILOT

By Telegraph to The Freeman.
Newburgh, July 17. A Wallkill Valley railroad train, travelling forty miles an hour, struck an automobile driven by Bernard Dahrens at Wallkill, Monday. The train was stopped 1,200 feet down the track and trainmen found Dahrens, fully conscious, but with a fractured leg, seated on the pilot of the locomotive. The automobile had been wrecked and pushed into the ditch. Taken to St. Luke's Hospital in this city, Dahren's chief concern seemed to be his disordered and rolled attire.

MRS. BURGEVIN BUYS BUILDING

A deed was filed for record in the Ulster county clerk's office today by which Melvin J. Schermerhorn and Alice McKillip, executors of the estate of the late Charles A. Schermerhorn, convey the two story frame building at 268 Fair street to Mrs. Grace Burgevin. The purchaser has for the past three years conducted the Opera Lunch in the lower floor, which she improved by lowering the floor and installing up-to-date fixtures and equipment throughout. By the purchase of the property she exercises an option to purchase which she had for some time. While the building is an old structure, its location for business is one of the best in the upper part of the city. The Opera Lunch under Mrs. Burgevin's ownership has been a success in every particular. The second floor is occupied by the Republican Club of Ulster County.

TWO GET 80 DAYS FOR DRUNKEN DRIVING

John Monahan and John Schermerhorn are serving eighty days each in the Greene county Jail Catskill, and Barney Carr a twenty days' term, the former two for reckless driving of an automobile in Prattville on Sunday, and Carr for public intoxication. They were arrested by Board of Water Supply Police and taken before Justice of the Peace Albert at Prattville who imposed the sentences. All had been drinking bootleg intoxicants.

KEPNER ASKS JURY TO PROBE WIFE'S DEATH

By Telegraph to The Freeman.

Frederick, Maryland, July 17.—B. Evard Kepner, whose wife's body was found at her father's home on June 18 with a bullet wound in the head, today joined in an appeal to the judges of the circuit court to impanel a special grand jury to investigate the mysterious killing.

A coroner's jury has already decided that Mrs. Kepner was murdered, but declined to charge any one with the crime.

Beat The Wiltwicks.

On Monday afternoon the Canfield Park team defeated the Wiltwicks by a score of 6 to 2. The battery for the winners was Sherman and Williams; for the Wiltwicks, Myers and McGinnis.

Change in Domestic Animals.

Changes in the habits and appearance of our domestic animals have become noticeable even within the last two centuries. These are due on the one hand to Nature, which is constantly adapting the animals to the altered conditions of the world they live in, and on the other to the efforts of scientific breeders who are deliberately trying to produce new strains. The horse of the sixteenth century was a heavier and slower animal than the average horse of today. Roads and haulage have changed and Nature has done her part to fit the horse's frame for its altered duties. So it is with almost every animal in man's service. With byres and sheds provided, the ox has lost his warm shaggy coat. In the case of the sheep, on the contrary, Nature has been encouraged in every way to produce a thicker covering. How readily Nature responds to altered circumstances is seen even in the domestic pig which if left without winter shelter, develops a coat of curly hair in place of the usual scanty bristles.

In China.

They had printing presses and other "modern improvements" in China when our ancestors were running around dressed in blue paint.

Now China is adopting many humane and sanitary measures. To promote higher standards in industry the Chinese Chamber of Commerce in Shanghai recently approved a set of regulations in which the following are included: There shall be no employment of children under twelve years of age; one day's rest in every seven; sanitary conditions improved; safety devices installed for machinery.

A million-watt vacuum tube has been built in Schenectady which is expected to carry radio telephone conversation across the Atlantic. We shan't mind, as long as they keep it pointed east.—Kansas City Star.

WOULD SEIZE HISTORIC ISLE

Dalmatian Town Claims Spot Made Famous by British Monarch in the Middle Ages.

Lacroma Island, where Richard Coeur de Lion was shipwrecked when he was sailing up the Dalmatian coast from the Holy land, figures in a lawsuit recently heard in the Jugoslav courts.

The little island, which lies about half a mile from the shore of Ragusa, has had a romantic history. Richard Coeur de Lion built a monastery on it in gratitude for being saved from the sea. More recently it has had two unhappy royal owners, Emperor Maximilian of Mexico and the ill-fated Crown Prince Rudolf of Austria.

Prince Rudolf's daughter, Elizabeth, received the island as a part of her dowry when she married Otto von Wittelsbach, who is concerned in the recent legal proceedings.

The town of Ragusa attempted to have the island transferred to the state according to the treaty of St. Germain. But Princess Elizabeth, the owner, who is living divorced from her husband at Baden, asserts that she is no longer a member of the Hapsburg family, as she renounced all her rights on the occasion of her marriage.

The claim of Ragusa was based upon a precedence case heard in Czechoslovakia in which members of the Hapsburg family lost their property. The claim was upheld and rejected successively by two courts, but before it had time to go through the highest courts, Princess Elizabeth relinquished all her rights in the island for the sum of \$625,000, which was paid by the state.

HISTORIES CALLED A MENACE

English Publication Condemns Flood of Writings Purporting to Tell of March of the World.

Short histories of the world are becoming a menace. A new genre has been discovered and a flood of books is the result.

Nor is it difficult to see why this should be the case. To write the his-

tory of England from 1688-1689 needs years of research, considerable intellectual effort and mental discipline. But to write the history of the world is a very different matter. All that is needed is some half-digested theory, round which can be woven a few carefully assorted facts and any number of hazy prejudices. Thus history becomes a "criticism" an "interpretation" by a "subtle," "sympathetic" or "inquiring" mind.

The authors of one recent example betray in their title the nature of their prejudices; for them a Twentieth century public schoolboy is the heir of all the ages, born into a world which has in some esoteric manner been getting better every day in every way.

Not for them is the painful possibility that history may be, after all, but a succession of events, some good, some bad, a catalogue of incidents, which it may sometimes be possible to diagnose, but upon none of which it is wise to construct a general philosophy.—London Statesman.

Hurt by Ancient Cannon Ball.

A cannon ball fired from a British warship which landed harmlessly in the side of a bank at Kingston, N. Y., after nearly a century and a half, smashed the fingers of a seven-year-old boy. The lad was walking along a street, which overlooks the Hudson river, and saw a queer-looking object imbedded in the bank. He dug it out with his fingers and it proved to be a seven-pound cannon ball. Starting to run home with his prize it slipped from his arms. As he attempted to pick it up it fell on his hands, smashing his fingers. It was in October, 1777, that a British fleet sailed up the Hudson river and anchored off Kingston point. A landing party of marines captured the battery. The boy's father stated that he would present the trophy to old Senate house, where New York state's first governing body met in council before the capital was removed to Albany.
